

Name: _____

A New System for Allocating Money to National Parks

What new system can you use to allocate money?

Explain how to calculate the funding based on your system.

Use the table below to show your decisions on how to allocate the National Park Funds.

	Total Funds for all National Parks		
	\$		
Category	Amount of funds for category	Unit Rate	Equation

Use your system to calculate the funding for these parks.

Name of Park	Area (Acreage)	Number of Visitors	Funding Allocated
Rocky Mountain National Park (medium park, many visitors)			
Gates of the Arctic National Park (large park, few visitors)			
American Samoa (small park, few visitors)			
Great Smokey Mountains National Park (medium park, many visitors)			
Hot Springs National Park (small park, many visitors)			
Death Valley National Park (large park, many visitors)
